Dear Ms. Thomas:

On March 31, 2003, we considered your Notice complete to conduct further exploration at an existing pit located on your Blue Beauty #28 (UMC 182661) mining claim in Section 27, T. 10 S., R. 6 W., Tooele County, Utah. We have designated your Notice as casefile serial number U-77799. Please refer to this number for all future correspondence related to your Notice.

We have enclosed our Reclamation Cost Estimate For Notice Level Operation for your proposed 2.05 acres of surface disturbance activities as described in your Notice. Our estimate itemizes the operating, equipment mobilization/demobilization and Bureau of Land Management's (BLM) administrative costs required. This results in a total reclamation liability of \$2,312.07 for your proposed activities.

We feel a \$2,300.00 estimate is sufficient to cover reclamation costs as if the BLM were hiring a contractor to perform reclamation after the project area has been worked, so please provide this office written notification if this amount is acceptable. Once we receive your letter, Ms. Opie Abeyta with the BLM State Office will contact you to post a financial guarantee. Notice level (mining) related financial guarantees are currently adjudicated in the BLM Utah State Office.

If for some reason our reclamation estimate is not adequate, please provide us additional information to help make the reclamation review complete. This provided information would be treated as an amendment to your submitted Notice and could possibly require the need for another reclamation cost estimate.
